

## World premiere to discover at the Montreal International Auto Show

**Montreal, January 18, 2024** — Club Tesla Québec is proud to welcome the Tesla vehicles in its booth at the Montreal International Auto Show at the Palais des congrès de Montréal from January 19 to 28, 2024. A unique opportunity to discover exclusive electric vehicles to be exhibited in a car show. The achievement of this world first would not have been possible without the combined efforts of the organizers of the Montreal Auto Show, Tesla, Club Tesla Québec and its volunteer members.

“Visitors will be amazed by the presence of the exclusive range of Tesla vehicles on display. We will offer the public a captivating, unique and informative experience thanks to an impressive team to answer all questions. As the Model Y is the best-selling vehicle in the world in 2023, we will have 2 of them to allow the public to discover it from all angles,” declares Stéphane Pascalon, president of Club Tesla Québec.

“Volunteer members of Club Tesla Québec will be present in record numbers to provide well-founded information, based on their experience driving a Tesla, many of whom have been owners for more than a decade. Visitors are more and more informed and curious when they come to the Club Tesla Québec booth. That's why Tesla sales, delivery, service representatives and technicians (mechanics) will help our members to provide cutting-edge information on what's new at Tesla. This will allow the public to live an unparalleled complete experience,” specifies Mario Langlois, vice-president of Club Tesla Québec.

**About Club Tesla Québec** — Club Tesla Québec is a non-profit organization with nearly 1,600 active members and more than 12,000 subscribers to its networks. Its board of directors is made up of 13 elected volunteers. Club Tesla Québec organizes and participates in a variety of electrifying events, offers a host of services to its members and informs the public about the advantages of driving electric.
